High Level Kids + Junior

Prolog

JWTS - the new opportunity for the ambitious tennis kids and juniors around the world!

Thomas Schulze
Founder JWTS

The international tournaments for juniors and children have been part of the calendar of all organizing associations for years, but for many talented young people they only take a lot of effort and effort in relation to the measurable result.

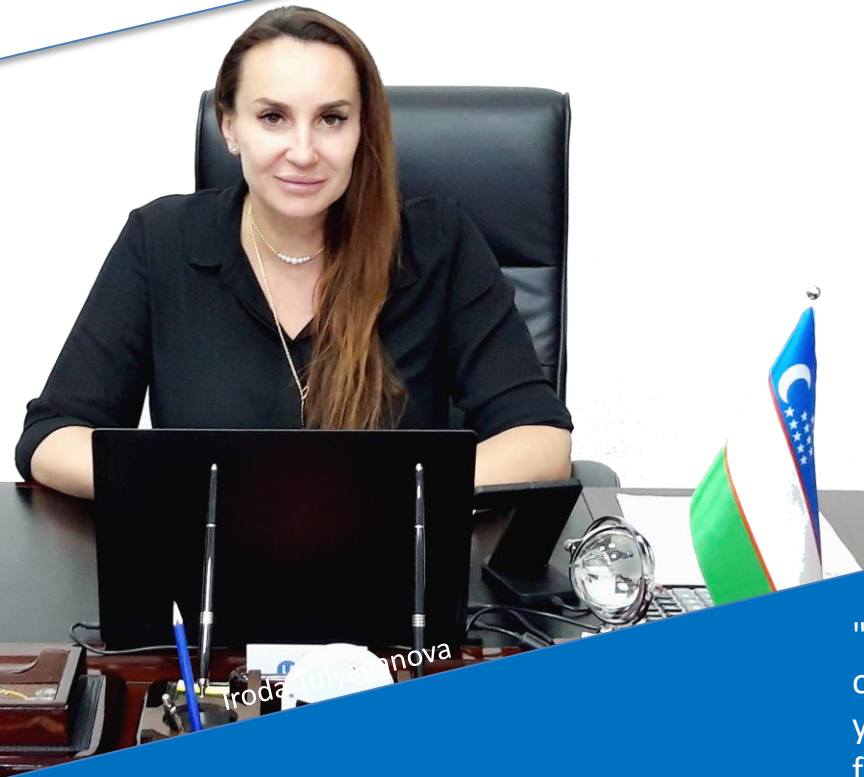

The resulting experiences of the young competitors, their coaches, parents and companions, but also the thoughts of people with decades of experience in tennis, whether tournament organizers, marketers, coaches or supervisors, ultimately eventuated in a small group of these veterans developing a novel approach. The focus of the endeavor is to promote young talents in tennis by the possibility to play many international tournaments to ease the leap into professional business.

For all players, several matches per tournament are guaranteed.

The outcome: JWTS - Junior World Tennis Series, the first worldwide high-level junior tournament series in the age groups U12-14-16 with world ranking. U9-10 will be promo events. With this series, the first world ranking for the youngest in this sport is created. First of all, the best players are determined regionally to qualify for the world finals. This means that players from every region will play in the world finals! Well-known tennis ambassadors at the respective events, exclusive prizes, and other additional services should motivate people to take part in the tournament series. The series will start in particular regions and will later be carried out throughout all continents.

" I think this project will take the junior tennis world to a new level. It offers the possibility for young players to measure themselves with their peers and to have a worldwide ranking, which did not exist until now. This is a strong motivation for the players as they can also prepare for the future professional tennis life, gaining a lot of experience...,,
Astrid Besser, Italien, Top-50 ITF Junior

"An international tour for juniors is very good. This project has been of great help to the future of juniors. It's a brave idea. We have to give the children an area of tennis development. Players are very motivated because they are guaranteed to play several matches per tournament. "
Karol Kucera, Slovakia, number 6 ATP

„I think as a young talented African player,I wish JWTS was there everything could have moved abit first but still happy the journey never stops here we are!!“
Boris Aguma, Uganda, Number 1 and member of Davis-Cup
